PERSONAL PROFILE

I am a confident, highly driven individual in the Information Communication Technology niche with hands-on computer maintenance, programming, database management and servicing, troubleshooting and experience in user support and system installation and configuration.

Resourceful and proactive, I combine effective communication skills with detailed technology knowledge to identify and troubleshoot Information Communication Technology issues and deliver a satisfactory outcome for the company whilst working alone and as part of a larger team.

I am currently looking for an opportunity to further my career within the ICT and Data Science sector.
